Implementation Science Workshop

CDUHR's Dissemination and Implementation Core and the NYU School of Medicine's Department of Population Health (DPH) co-sponsored the Implementation Science: Theory, Methods, and Application workshop on July 7th, 2016. This well-attended workshop hosted speakers from across disciplines versed in dissemination and implementation methods and research.

Approximately 80 faculty, post docs, graduate students, and staff participated in lively presentations, Q&As, and breakout sessions at this all-day event. Slides from the presentations can be found on the CDUHR website, as well as a list of implementation science resources.

Welcome the BST Program to NYU

The **Behavioral Sciences Training in Drug Abuse Research (BST)** program has moved to NYU Rory Meyers College of Nursing. The program, which is NIDA's largest and longest-standing (over 30 years) training program, has been closely linked with CDUHR, working with the fellows since the Center was first funded, and we look forward to an even stronger relationship with this move.
